**FEEDING INSTRUCTIONS:**

Big V High Performance Horse Block should be used to balance out a feeding program and should be consumed at the rate of 2 to 3 pounds per day. The consumption will depend upon the nutritive value of the ration being fed and the pasture conditions. After the first few days the animals will become accustomed to the block and consumption will decrease to a normal amount. When fed in pasture or on range, place the blocks near water sources for best results.
